

## Hotel Internet Service — Free Wireless Internet Access

We have been offering free internet via LAN cable in all the guest rooms.

We are now happy to offer free wireless internet access(Wi-Fi)service in all guest rooms.

### **Requirements**

\*PC with built-in LAN / wireless network adapter

\*Operating system : WindowsXP or later versions(PC) / OSX or later versions(Mac)

\*Wireless LAN (Wi-Fi adapter) enabled iOS device(iPhone,iPads,etc)

\*Wireless LAN (Wi-Fi adapter) enabled Android device(Smart-phone,Tablets,etc)

### **Wi-Fi Service Connection**

\*A name of Wi-Fi Network(SSDI) and a password are indicated on this sheet.

### **Notes**

The wireless connection service is available throughout most of the hotel, but depending on the location , the signal may be weak or unavailable.

When using the internet, please understand that you will be responsible for your own online security.

Please note that the hotel will not responsible for any loss or damage caused by unexpected outages of system faults.

Please be considerate of other guests and refrain from downloading heavy files or playing online games for long periods.
